# MONTHLY DIGEST OF STATISTICS

## No. 301

## JANUARY 1971

1. This *Digest* has been prepared by the Central Statistical Office in collaboration with the Statistics Divisions of Government Departments.

2. The name of the department or organisation providing the statistics is shown under each table. Some of the statistics provided by departments are actually collected by other organisations such as nationalised boards and trade associations. The assistance provided by these organisations, too numerous to mention individually, is gratefully acknowledged.

3. The figures in the *Digest* are mainly totals for calendar months or monthly averages.

4. Some of the figures included in this *Digest* are provisional only and may be revised in later issues.

### Definitions

5. *A Supplement of Definitions and Explanatory Notes*, published with the January issue, gives detailed definitions of all the terms and units used in the *Digest*.

6. The following general definitions should be noted in using the *Digest*:

*Area covered.* Except where otherwise stated, all statistics relate to the United Kingdom of Great Britain and Northern Ireland.

*Units of measurement.*
Ton = long ton of 2,240 lb.
Gallon = imperial gallon.

*Consumption and stocks.* The terms 'consumption', 'disposals' and 'stocks' are normally defined in detail in the *Supplement* to the *Digest*.

Figures of consumption and stocks are seasonal and should be used with caution. The stocks figures given may often relate to only part of the total stocks in the country.

*External trade.* Owing to differences in coverage and timing, figures of imports and exports are not always comparable with those for production, consumption and stocks.

### Symbols and conventions used

7. *Symbols.* The following symbols are used throughout:

.. not available.
— nil or less than half the final digit shown.
* average (or total) of five weeks.

8. *Change of basis.* A line drawn across a column between two consecutive figures indicates that the figures above and below the line have been compiled on different bases and are not strictly comparable. In each case a footnote explains the difference.

9. *Rounding of figures.* In tables where figures have been rounded to the nearest final digit, there may be an apparent slight discrepancy between the sum of the constituent items and the total as shown.

*Central Statistical Office,*
*Great George Street, S.W.1.*

*22 January 1971*

(1) The figures for June 1964(a) and the corresponding figures for earlier months are not strictly comparable with those for June 1964(b) and later months which, for Great Britain, are on the revised basis of calculation (see pages 110–112 of the March 1966 issue of the *Ministry of Labour Gazette*.)

(2) Between June 1966 and June 1967 the industrial classifications of many establishments in Great Britain were corrected. The estimates for June 1967 take account of these reclassifications and the figures for individual industries are therefore not comparable with those published for previous mid-years. Two sets of estimates are given for June 1966 i.e. (a) excluding the effects of reclassifications (for comparison with earlier estimates) and (b) including the effects of reclassifications (for comparison with subsequent estimates).

(3) Estimates for June 1969(a) are classified according to the Standard Industrial Classification (1958) and are not fully comparable therefore with the estimates for June 1969(b) which are classified on the basis of the Standard Industrial Classification (1968).

(4) The industries included in the index of production are Orders II-XVIII of the Standard Industrial Classification (1958) and Orders II-XXI of the Standard Industrial Classification (1968).

(5) Owing to reclassification, figures for 1963 are not strictly comparable with those from 1964 onwards. See page 59 of the February 1965 issue of the *Ministry of Labour Gazette*.

(1) Figures after June 1969 are provisional being subject to revision after the count of national insurance cards at mid-1970.

(2) The Order Groups of the Standard Industrial Classification are presented in the format of the Standard Industrial Classification 1968. However, estimates for June 1969 (a) and earlier months are classified according to the Standard Industrial Classification (1958) and are not fully comparable therefore with the estimates for June 1969 (b) and later months which are classified on the basis of the Standard Industrial Classification (1968). The industries included in the Index of Production are Orders II–XVIII of the Standard Industrial Classification (1958) and Orders II–XXI of the Standard Industrial Classification (1968).

(1) Established and unestablished staff, excluding employees of the Northern Ireland Government. In arriving at the totals two part-time workers are counted as one whole-time worker.
(2) Including the Department for National Savings (15,300) and the Ministry of Posts and Telecommunications (355) from 1 October 1969.
(3) Casual or seasonal staff recruited for periods normally of less than six months. These are included in the total and other columns.
(4) Became a public corporation on 1 October 1969.
(5) Ministry of Social Security before November 1968.
(6) Ministry of Labour up to May 1968.
(7) Ministry of Aviation up to January 1967. In February 1967 the functions of the Ministry of Aviation were taken over mainly by the Ministry of Technology (which was formed in October 1964).
(8) In July 1966 certain staff of the Ministry of Aviation were transferred to the Board of Trade.
(9) Including the Ministry of Technology up to January 1967, and Ministry of Health up to October 1968.

*Note*: Figures after June 1969 are provisional and may be revised after the final figures for the mid-1970 count of national insurance cards become available.

(1) Orders III-XVI of the Standard Industrial Classification (1958) and Orders III-XIX of the Standard Industrial Classification (1968).

(2) Figures relate to establishments with more than 10 employees in all manufacturing industries except shipbuilding and ship repairing. (3) Excluding maintenance staff.

(4) From June 1969 it is assumed that operatives stood off by an employer for the whole week have been on short-time for 40 hours each.

(1) Including ex-service men and women and other registered unemployed persons aged 18 years and over not classified to an industry. Registered unemployed school-leavers (i.e. persons under 18 not in full-time education who have not yet taken up employment) are excluded.
(2) Based on the January to May figures (1958 SIC) and the June to December figures (1968 SIC).
(3) The method of seasonal adjustment has been revised and details of this are given in the April 1970 issue of the *Employment & Productivity Gazette*.

(1) Stoppages involving fewer than 10 workpeople or lasting less than one day have been omitted except any in which the total number of working days lost exceeded 100. The figures for 1970 are provisional.

(2) From January 1970 the analysis by industries is based on the *Standard Industrial Classification 1968*. Figures prior to that date are based on the *Standard Industrial Classification 1958*.

(3) Where stoppages extend over more than one month, the workers involved are counted in the month in which they first participated.

(4) The figures of working days lost relate to the total working days lost within each of the periods shown as a result of stoppages *in progress* in that period, whether the stoppages began in that period or earlier.

(1) Figures for individual months are averages of the four or five weeks ending on the last Tuesday of each month.
(2) Including prescribed industrial disease.
(3) Yearly figures are averages of twelve monthly figures.
(4) These figures include substantial numbers of persons who have been sick for a long time and who may no longer be in employment.
(5) Yearly figures are averages of quarterly figures. Quarterly figures relate to first Monday in February, May, August and November.
(6) Including a diminishing number of widows with pensions of 30s a week derived from the old Contributory Pensions Acts.
(7) Including the elder or eldest child for whom no allowance is payable.
(8) Average of twelve months March 1966 to February 1967.
(9) The estimates shown for January 1970 for administrative reasons have not been based on 'claim papers in action'.
*Average of five weeks.

(1) Excluding agricultural holdings of one acre or less in extent in Great Britain until 1969. With effect from June 1970 the census was extended in Great Britain to cover all holdings with significant output including those on one acre of agricultural land or less. In Northern Ireland excluding holdings of less than one acre. (2) Excludes Scotland (3) Gross production figures are shown. (4) Includes some production diverted from green peas. (5) Weight in pod. (6) Shelled weight. (7) Excludes rape grown for oilseed in England and Wales. (8) England and Wales only. (9) Production figures relate to hay only. The production of hay in England and Wales is calculated from the area cut for hay and actually harvested and does not include the area mown for silage, drying or seed: the production of hay in Scotland and Northern Ireland is calculated from the area cut for hay only and does not include grass mown for silage or drying. (10) Clover and rotation grasses. (11) Includes lucerne. (12) Includes hay from permanent grass in Scotland. (13) Includes hay from lucerne. (14) Excludes some 47,000 holdings in England and Wales which make a negligible contribution to agricultural output. This affects comparison with permanent grassland acreage figures in previous years. (15) Includes the total area of deer forest land in Scotland.

(1) Based on returns from Potato Marketing Board and Ministry of Agriculture, Northern Ireland.
(2) Disposals (excluding seed and chats) of home grown and imported potatoes for human consumption, processing, export and sales for stockfeed through schemes for implementing the Agriculture Act, 1947. (3) Including sugar used in the manufacture of other foods.
(4) Imported and home produced supplies of refined and raw sugar.
(5) 53 week period (except for potatoes). *Five week period.

(1) Mines operated by the National Coal Board which account for about 99 per cent of the total output. Changes in the basis of the recorded figures have occurred from time to time making comparisons difficult. The figures given in this table have therefore been adjusted where necessary to conform throughout to the current definitions given in the *Supplement of Definitions and Explanatory Notes*.

(2) Week ended 30 December 1967 is omitted from the figures.
Average of five weeks.

(1) Excluding quantities used for production of steam for sale. In 1970, 245,000 tons of coal and 16,000 tons of oil were used for that purpose.

(2) Including generation by oil engine, refuse destructor, and waste heat.

| December | | | | | | | | | |

(1) Excluding natural gas.
(2) From January 1968 agency pick-up sales are included under dealers, and not as previously under commercial consumers. These sales amounted to 5·4 thousand tons (5, 4 and 3 star) and 5·6 thousand tons (other) in January 1968.
(3) From January 1967, all finished motor spirit with an octane number (research method) not less than 94. The figures relate to Premier grades prior to January 1967.
(4) The figures relate to Standard grades prior to January 1967. (5) Provisional.

(1) At steel works and steel foundries. (2) At steel works, steel foundries and blast furnaces.
(3) Stocks at producers' works of ingots, semi-finished and finished steel in terms of ingot equivalent. From March 1970 the figures are revised due to re-measurement.
(4) 53 week period. (5) Average of fourteen weeks.
*Average of five weeks.

(1) Plates 3 mm. thick and over; sheets less than 3 mm. Alloy qualities are included.
(2) Excludes alloy. (3) Deliveries from home production. (4) Includes alloy, all sizes.
(5) Excludes welded tubes over 16 inch o.d. (6) Up to and including fettling.
(7) Average of fourteen weeks. * Average of five weeks.

(1) Characteristic products of industries in Order VI of the *Standard Industrial Classification 1958*, except ordnance and small arms. Excluding deliveries by the smallest firms which are estimated to be about 2 per cent of the total. In general, spare parts supplied by manufacturers of complete machines are included with these machines, but parts, other than those separately specified, supplied for assembly by makers of complete machines are included in the heading for sub-contract sales and components.

(1) Includes naval vessels registered as merchant ships.
(2) Gross tonnage (100 cubic feet per g.t.) is the total volume of all the enclosed spaces of a vessel.
(3) The total tonnage specified on ordering vessels differs slightly from the total actual measured tonnage on completion.
(4) Vessels are shown for export if they are for other than UK registration.
(5) Modifications include alterations of 500 gross tons or more to the tonnage and the country of registration of vessels already on order.
(6) Modifications and cancellations exceed new orders for the period.

(1) Spinning, doubling processing, weaving and converting parts of the cotton industry, plus man-made fibre, wool, jute carpets and hosiery industries. (2) These indices have been adjusted to allow for the differences in the lengths of calendar months but not for holidays or for other seasonal variations. (3) The index numbers for individual sectors relate to the total output of manufacturers whose main business is in that sector of the industry and not output of that particular type of garment.

(1) Manufacturers' sales by establishments employing 25 or more persons. (2) Before 1967 figures relate to years ending January of the following year and to quarters ending April, July, October and January. From 1967 figures relate to calendar quarter, i.e. ending March, June, September and December. (3) Including garments made-up from knitted fabrics of all types by establishments engaged in knitting, except those engaged solely in warp knitting and, from 1966, those engaged mainly in warp knitting. (4) From the first quarter of 1967 the figures do not include shirts. (5) Excluding infants' gloves, bootees, infantees, etc. (6) Included in the preceding columns. (7) Prior to 1968 figures for women's tights and panti-hose were not collected separately.

(1) Figures relate to data actually collected. It is known that figures of consumption are incomplete and the following estimated 'deficit allowances' should be added each month to give an indication of total consumption (thousand tons): natural 0·8; synthetic 1·3; reclaimed 0·2.
(2) Stocks held by United Kingdom producers and larger consumers.

(1) The figures relate to schemes mainly over 5,000 sq. ft. (2) For all projects (new buildings, extensions to existing premises and buildings converted to industrial use) for which industrial development certificates were issued. (3) These regions take in the places designated as Development areas under the Industrial Development Act, 1966: the aggregate figures for the Development areas are shown separately. (4) The area of industrial building has, since the introduction of the Industrial Development Act in August 1966, been extended to include all ancillary space for storage, canteens, etc. Prior to that date ancillary space was not counted, except in Scotland, Wales and the Northern region; the figures since that date on the old basis of measurement are estimates of the area which would have been approved under the pre-August 1966 definition. (5) For manufacturing industry only (new buildings and extensions to existing premises).

(1) Excluding building which is wholly financed from private sources. (2) From January 1960 for Scotland and from April 1960 for England and Wales the cost of school meals projects has not been separately recorded. The value of such projects, shown separately for the years 1946 to 1959 in previous tables of educational building, has been included as appropriate under the headings 'Primary and secondary' and 'Special schools'. (3) Figures for England and Wales include the value of projects for which specific approval is not required. (4) Totals for England and Wales include the value of certain projects for which no analysis between type of project is available. As from October 1961, the individual value of such projects is less than £2,000. (5) Figures for England and Wales relate to project values and those for Scotland to contract values. Figures for Scotland include the cost of certain minor projects for which specific approval is not required. (6) The Scottish figures of projects approved refer to approval at the sketch plan stage, which might be some six to twelve months before the start of construction. (7) The Scottish figures of 'Under construction' and 'Completions' are based on the tender costs. The 'Under construction' and 'Completions' figures exclude the value of approved school projects which in 1969 amounted to £1,246,000 and £406,000 respectively.

(1) The method of calculation of the number of new places provided differs in England and Wales and Scotland. In England and Wales the figures refer to the number of pupils for which new school accommodation is designed. In Scotland the figures refer to the sum of the approved capacities of all the teaching rooms whether classrooms or practical rooms, and will normally exceed the number of pupils for which accommodation is designed.
(2) Including new schools brought into partial use before completion.
(3) Extensions, alterations, remodelling and war damage repairs.

(1) Including pedestrian controlled delivery vans. (2) Including trolleybuses, tramcars and some private hire cars. (3) Up to and including 1964, showmen's vehicles, tower wagons and local authorities' watering and cleansing vehicles are included. From 1965 onwards, tower wagons used for street lighting and local authorities' vehicles are included with vehicles exempt from duty. All the figures include both general and agricultural goods vehicles, general haulage tractors and showmen's tractors. (4) Licences current at any time during the September quarter. The figures for all years except 1966 are on a sample basis. (5) Quarterly estimates based on licence issues and refunds.

(1) The railway figures are derived from statistics compiled by the British Railways Board and from 1969 include estimated ton mileage of freight carried by BRB on behalf of Freightliners Ltd. and National Carriers Ltd. The annual figures for road transport are estimated from periodic sample enquiries, traffic count data, trends in the goods vehicle population and changes in industrial output. The monthly road transport figures are estimated from traffic count data. (2) Not over 30 cwt. unladen weight.
(3) Includes vehicles with draw-box trailers

(1) Passenger journey figures for 1969 and subsequently are no longer strictly comparable with those for previous years, due to the transfer from British Rail to London Transport railways of the Bow to Upminster line on 1 January 1969. In addition the three stages of the new 10½ mile Victoria Line were opened to traffic commencing respectively on 1 September and 1 December 1968 and 7 March 1969.
(2) The four-weekly averages for each year are computed from calendar year totals.
(3) The four-weekly figures are subject to correction in the following year.

(1) The four-weekly figures are subject to correction in the following year.
(2) The four-weekly averages for each year are computed from calendar year totals.
(3) Freight train traffic only.
(4) From January 1969, figures do not include freight carried on behalf of National Carriers Ltd. and Freightliners Ltd.

| November | 173 | — | — | − 9 | 69 | 35 | — | 3 | 11 | 6 | 4 | 59 | — | − 5 |
| December | 290 | — | 5 | 27 | 18 | 70 | — | 13 | 10 | 5 | 2 | 138 | −3 | 5 |

(1) In addition to its lending, the National Loans Fund meets the interest and management charges of the National Debt. To the extent that these charges are not matched by interest received on its own lending and by profits of the Issue Department of the Bank of England, the Consolidated Fund meets the difference. The surplus on the Consolidated Fund is paid to the Fund, leaving the difference between that and its net lending as the Fund's financing requirement. (2) Electricity Council, North of Scotland Hydro-Electric Board and South of Scotland Electricity Board. (3) British Overseas Airways Corporation, British European Airways Corporation and British Airports Authority. (4) Including loans to harbour authorities. (5) Loans under the Ship Credit Scheme and to the Shipbuilding Industry Board, housing associations and building societies. (6) Loans to Votes for U.S. military aircraft, married quarters for armed forces and Town and Country Planning compensation; and lending to Redundancy Fund, Land Commission and Northern Ireland Government.
(7) Calculated on the new basis for purposes of comparison.

(1) This is equal to Exchequer borrowing and special transactions (net) *less* receipts from extra-Exchequer funds, etc. It is also equal to the amount the central government borrows *less* any increase (or *plus* any decrease) in its official reserves.
(2) A negative item represents a surplus, a positive item a deficit.
(3) The cumulative monthly figures do not agree precisely with the quarterly figures because of adjustments, incorporated in the latter, for accrued interest on National Savings and for issued coin.
(4) Calculated on the new basis for purposes of comparison.
(5) Adjustment for redemption of government guaranteed stock.
(6) Including in March of each year transfer of surplus of the death duties surrendered securities account.
(7) Including surrender of final balance on the local loans fund.
(8) Consolidated Fund liability for service of the National Debt; balance carried over until March.

(1) Including some land tax, mineral rights duty, excess profits duty and special contribution, not included under separate headings; these amounted to approximately £0·2 million in each of the financial years 1965/66 and 1966/67. Including profits tax, excess profits tax and excess profits levy from April 1969. (2) Payments due in certain cases where the overseas rate exceeds the corporation tax rate (Section 84, Finance Act 1965). The figures relate to calendar months. (3) The yearly totals include revisions which cannot be allocated to particular monthly periods.

(4) Including receipts from the 10 per cent regulator on most Customs and Excise duties and on purchase tax, operative (i) from 21 July 1966 to 11 April 1967 and (ii) from 23 November 1968 to April 1969. (5) The figures given do not include receipts from Northern Ireland, as the duties apply only in Great Britain. Separate duties on betting have been imposed by the Government of Northern Ireland. (6) Including receipts from the temporary charge on imports from October 1964 to November 1966 *less* export rebates. (7) Includes arrears in respect of earlier years. (8) Provisional.

(1) Figures supplied by the Bank of England and rounded to the nearest £5 million.
(2) Total deposits *less* (i) balances with, and cheques in course of collection on, other banks in the United Kingdom and the Republic of Ireland and (ii) items in transit between offices of the same bank.
(3) Comprising (i) Coin, notes and balances with Bank of England, etc. (excluding special deposits), (ii) Money at call and short notice; (iii) Bills discounted, which include re-financeable export credits.
(4) Excluding items in transit.
(5) Excluding advances to nationalised industries (including, from 28 July 1967, the British Steel Corporation).
(6) Some changes have been made in the accounting procedures of the clearing banks. Changes in the treatment of transit items at mid-January 1970 are estimated to have reduced London clearing banks' gross deposits by about £350 million. From January 1970, inner reserves and sundry provisions were transferred from gross deposits: this reduced gross deposits by some £500 million and affects the ratios. From January 1970, the investment figures are affected by the revaluation of investments following full disclosures of profits. This produced an upward revision of some £75 million.

(1) Total deposits *less* items in transit between offices of the same bank.
(2) Comprising (i) Coin, notes and balances with Bank of England (excluding special deposits); (ii) Balances with other banks etc.; (iii) Money at call and short notice; (iv) Bills discounted.
(3) Liquid assets include, and Advances exclude, re-financeable export credits.
(4) Deposits called under the Special Deposits Scheme and not at the banks' free disposal.
(5) Some changes have been made in the accounting procedures of the Scottish banks. Changes in the treatment of transit items at mid-January 1970 are estimated to have reduced Scottish banks' gross deposits by over £60 million. From January 1970, inner reserves and sundry provisions were transferred from gross deposits: this reduced gross deposits by some £45 million for the Scottish banks and affected the ratios. From January 1970 the investment figures are affected by the revaluation of investments following full disclosure of profits. This produced an upward revision of some £5 million.

(1) Figures are not strictly comparable throughout owing to changes in the composition of the clearings. From 12 January 1968 provincial clearings, with the exception of the afternoon clearing at Liverpool, were abolished and transferred to General clearing. From 1 July 1969 all figures are worked on a 5 day week.

(2) Average of Wednesdays. Includes Bank of England notes held by the Scottish and Northern Ireland Banks as cover for their note issues in excess of the authorised circulation.

(3) Months: average of Saturdays in the consecutive four-week periods as published in *The London Gazette* or in *The Belfast Gazette*, with as close a correspondence as possible to the calendar months. Years: average of the thirteen published figures.

(4) Excluding coin in the Bank of England, Issue Department.

(5) Total notes and coin outstanding, *less* notes and coin held by the Bank of England, Banking Department, and by the London clearing banks, Scottish banks and Northern Ireland banks.

(6) The figures are affected by bank mergers.

(1) The annual figures are averages of the figures for February, May, August and November.
(2) Included in Other manufacturing in Northern Ireland.
(3) The February 1968 figures are affected by the revaluation of foreign currency advances after 18 November 1967, and by the inclusion of several new contributors. Together, these accounted for some £260 million of the increase over the quarter in total advances (UK residents + £60 million and overseas residents + £200 million).

(1) Excluding securities of the British government and nationalised industries.
(2) The figures have been revised to exclude estimates of the subscriptions arranged by United Kingdom sponsors to international issues.
(3) The estimates include United Kingdom local authority negotiable bonds (of not less than one year) issued to or through the agency of banks, discount houses, issuing houses or brokers; these bonds were first issued in February 1964.

(1) Derived from yield-maturity curves fitted by computer; an outline of the method used was given in the *Bank of England Quarterly Bulletin* for March 1967. Taxes are ignored. The yearly figures are averages of end month yields. The monthly figures are averages of Wednesdays.
(2) Average of working days, based on the mean of the middle opening and middle closing prices each day, excluding gross accrued interest; tax is ignored.
(3) Averages of daily figures calculated from middle market closing prices.
(4) Gross redemption yields of 15 stocks so combined as to give a yield average for a constant 20-year term.
(5) From January 1966 stocks with coupons below 5 per cent were omitted from the calculations.

(1) The figures represent the average earnings, including bonus, overtime, etc., and before deduction of income tax or insurance contributions, in one week in the months indicated. Administrative and clerical workers and other salaried persons have been excluded. Certain qualifications are given in a full account of the enquiry relating to April 1967, published in the *Ministry of Labour Gazette* for August 1967.

(2) From and including October 1967 includes (a) dock workers previously on daily or half-daily engagements and (b) postmen.

(3) This index relates only to the industries covered by the earnings enquiry. It should not be confused with the figures in Table 161 which cover all industries.

(1) England and Wales only. (2) Except sea transport and postal services.
(3) Consisting of laundries and dry cleaning, motor repairers and garages and the repair of boots and shoes.
(4) For notes on the index classified according to Standard Industrial Classification 1968 see pages 470-471 of the *Employment and Productivity Gazette* for May 1970.
(5) Provisional.
(6) Insufficient information is available to enable a reliable index for 'agriculture' to be calculated for the current month but the best possible estimate has been used in the compilation of the index for 'all industries and services'.

(1) The figures are based upon changes in basic rates of wages or minimum entitlements and reductions in normal weekly hours, which are normally determined by national collective agreements or statutory wages regulation orders. The information relates to the end of the month and, where necessary, the figures may be revised to take account of any changes having retrospective effect or reported belatedly. A brief note on the method of compilation of the figures is given in the current issue of the *Employment and Productivity Gazette*.

(2) In general, males under 21 and females under 18 years of age.

(3) The term 'Manufacturing industries' covers all industries included in Orders III–XIX of the *Standard Industria Classification, 1968*.

(1) The figures relate to changes in basic full-time weekly rates of wages or minimum entitlements and do not reflect reductions in normal weekly hours without loss of pay or variations in actual earnings arising from such factors as overtime or lost time. The changes included are those determined by national collective agreements or by statutory wages councils or boards.

(2) The monthly totals in the columns headed 'Increase' and 'Decrease' relate to the number of workpeople affected by changes and the corresponding gross amounts. Workpeople affected by two or more changes are counted only once in the annual totals which relate to the number having increases only or for whom increases exceeded decreases, the number having decreases only or for whom decreases exceeded increases, and the corresponding net amounts; the column headed 'Net increase,' is therefore the overall net increase for the year.

(3) The annual totals of net increases in basic weekly rates of wages mean that the total wage bill of the country, in the industries and for the workpeople covered by the statistics, for a full ordinary week's work at basic rates of wages at the end of any one year exceeds that for the corresponding week of the preceding year by the amount stated. The average weekly wages paid during any one year will not, however, exceed those paid during the preceding year by this sum, as the actual changes will have taken place at various dates during the year.

(1) The weighting of the monthly index is based on the pattern of trade in 1961. The method of calculating the import and export unit value index was explained in the *Board of Trade Journal* for 13 September 1963.
(2) Export unit value index as a percentage of the import unit value index.
(3) This new index replaces the former time charter and voyage charter index numbers.

(1) The Cost of Living Advisory Committee recommended in 1962 that until a satisfactory index series based on actual prices became available half the expenditure on meals out should continue to be allocated to the food group and the other half spread proportionately over all groups, including the food group. The index for meals out for 16 January 1968 implicit in this recommendation was 121·4. Since January 1968 an index series based on actual prices has been available and indices in this series have been linked with the implicit index for meals out for 16 January 1968, to obtain indices for meals out with 16 January 1962 taken as 100.

(2) These are the weights which would have been used in 1968 if expenditure on meals out had been treated as in previous years (see footnote(1)). The weights actually used are given in the following line.

(1) Based on manufacturers' list prices.
(2) The market-price series are based on prices before the addition of subsidies paid to producers under the Cereals Deficiency Payments Scheme and Fatstock Guarantee Scheme.
(3) The gross-price series for wheat, cattle and pigs are based on prices after the addition of subsidies paid to producers; those for milk and eggs on prices paid to producers by the marketing boards for these commodities; and that for potatoes on producer prices, sometimes 'supported' by the Potato Marketing Board. (4) Figures to June 1969 have been adjusted to final deficiency payments.
(5) Maincrop potatoes only.
(6) Based on guaranteed minimum prices to producers at packing station until March 1966, then to March 1970 on BEMB prices to producers under the Egg Contract Schemes. Thereafter based on minimum producers prices as in years prior to March 1966.
(7) Based on net prices to farmers after deduction of subsidy. (8) Provisional.

CENTRAL STATISTICAL OFFICE

# Social Trends
# No. 1 1970

*A new annual publication about people and their environment*

**Social Trends** brings together in one volume key statistics relating to all areas of social policy and conditions, highlighting trends and patterns with colour charts and diagrams. It has been produced by the Central Statistical Office in response to a demand for this type of publication from people creating and carrying out social policies in many fields and at many levels. It aims to give a rounded picture of the social scene through a comprehensive selection of statistics, brought together from many different and sometimes not widely-known sources.

The first issue of **Social Trends** runs to nearly 200 pages including eleven main sections, each with introductory notes, tables and colour charts on:

| | |
|---|---|
| Public expenditure | Population and environment |
| Employment | Leisure |
| Personal income and expenditure | Social security |
| Welfare services | Health |
| Education | Housing |

Justice and law

In addition there are four articles:

*Some general developments in social statistics*
by Professor C. A. Moser

*Public expenditure on the social services*
by Professor Brian Abel-Smith

*The growth of population to the end of the century*
by Jean Thompson

*A forecast of effective demand for housing in Great Britain in the* 1970's
by A. E. Holmans

Detailed appendices provide source references, definitions of terms and qualifications to series used in the publication.
